9 business leaders explain what sustainable impact means to them

More than two years into the COVID-19 pandemic, organizations have adopted strategies to tackle the societal inequalities and global problems that COVID-19 has laid bare by prioritizing sustainable impact. As leaders navigate this “new normal,” they are honing long-term, revolutionary ideas aimed to address some of the workplace’s most pressing issues, including diversity, climate change, and income inequality. We asked members of the Fast Company Impact Council an invitation-only, forward-thinking group of global business leaders and innovators what sustainable impact means to them. Here’s what they told us.

What Leadership Development Should Look Like in the Hybrid Era

As organizations and individuals around the world settle into a blend of in-person and virtual work, we’re learning more about the opportunities and risks hybrid brings. One key concern is leadership development. We know that some of the vital ways in which executives learn on the job such as serendipitous interactions and informal feedback suffer in virtual and hybrid contexts. At the same time, improvements in technology have expanded program design possibilities. Indeed, this might be just the right moment for leadership development to reinvent itself moving beyond the week-in-a-classroom model of learning towards

the energetic workforce of the youthful population.

something more experiential and applied and partly virtual.
